A foggy bad road, you are going fast,
driving a complex machine ,
others on road not all organised.

What do you do?

Become one with the act !

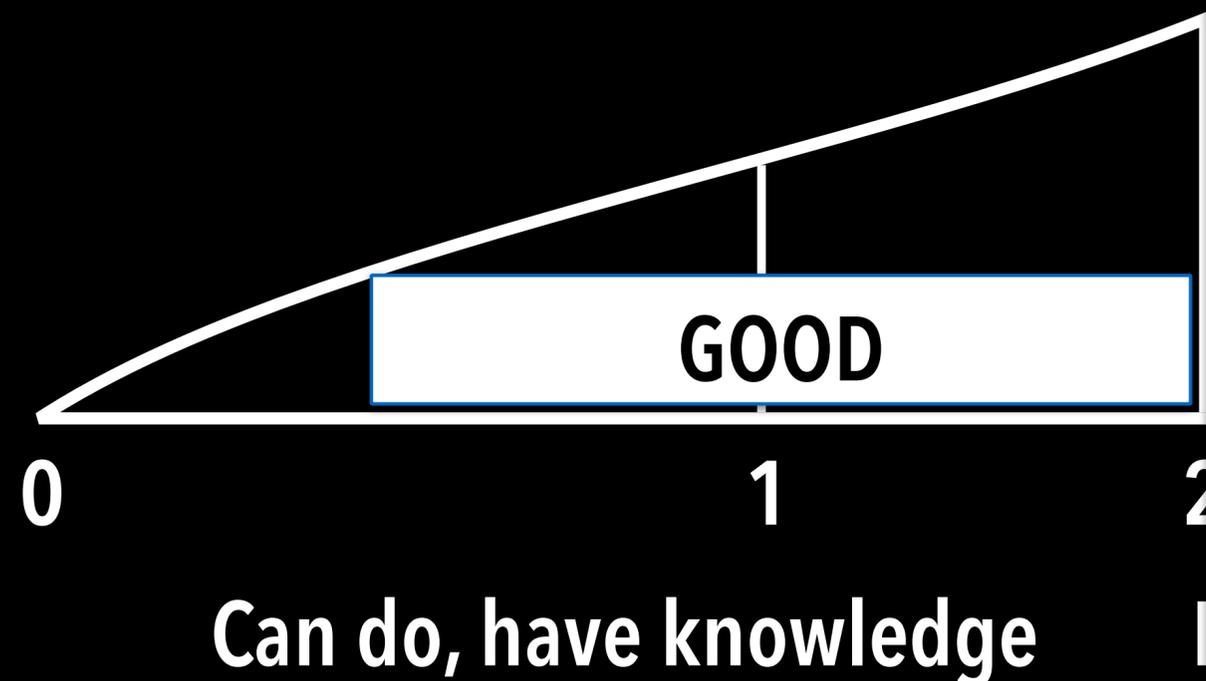

So, what is **GOOD** \rightarrow **BRILLIANT**?

Let me illustrate this on a 5-point scale.

So, what is **GOOD** \rightarrow **BRILLIANT**?

Let me illustrate this on a 5-point scale.

GOOD : The outcomes here are acceptable.

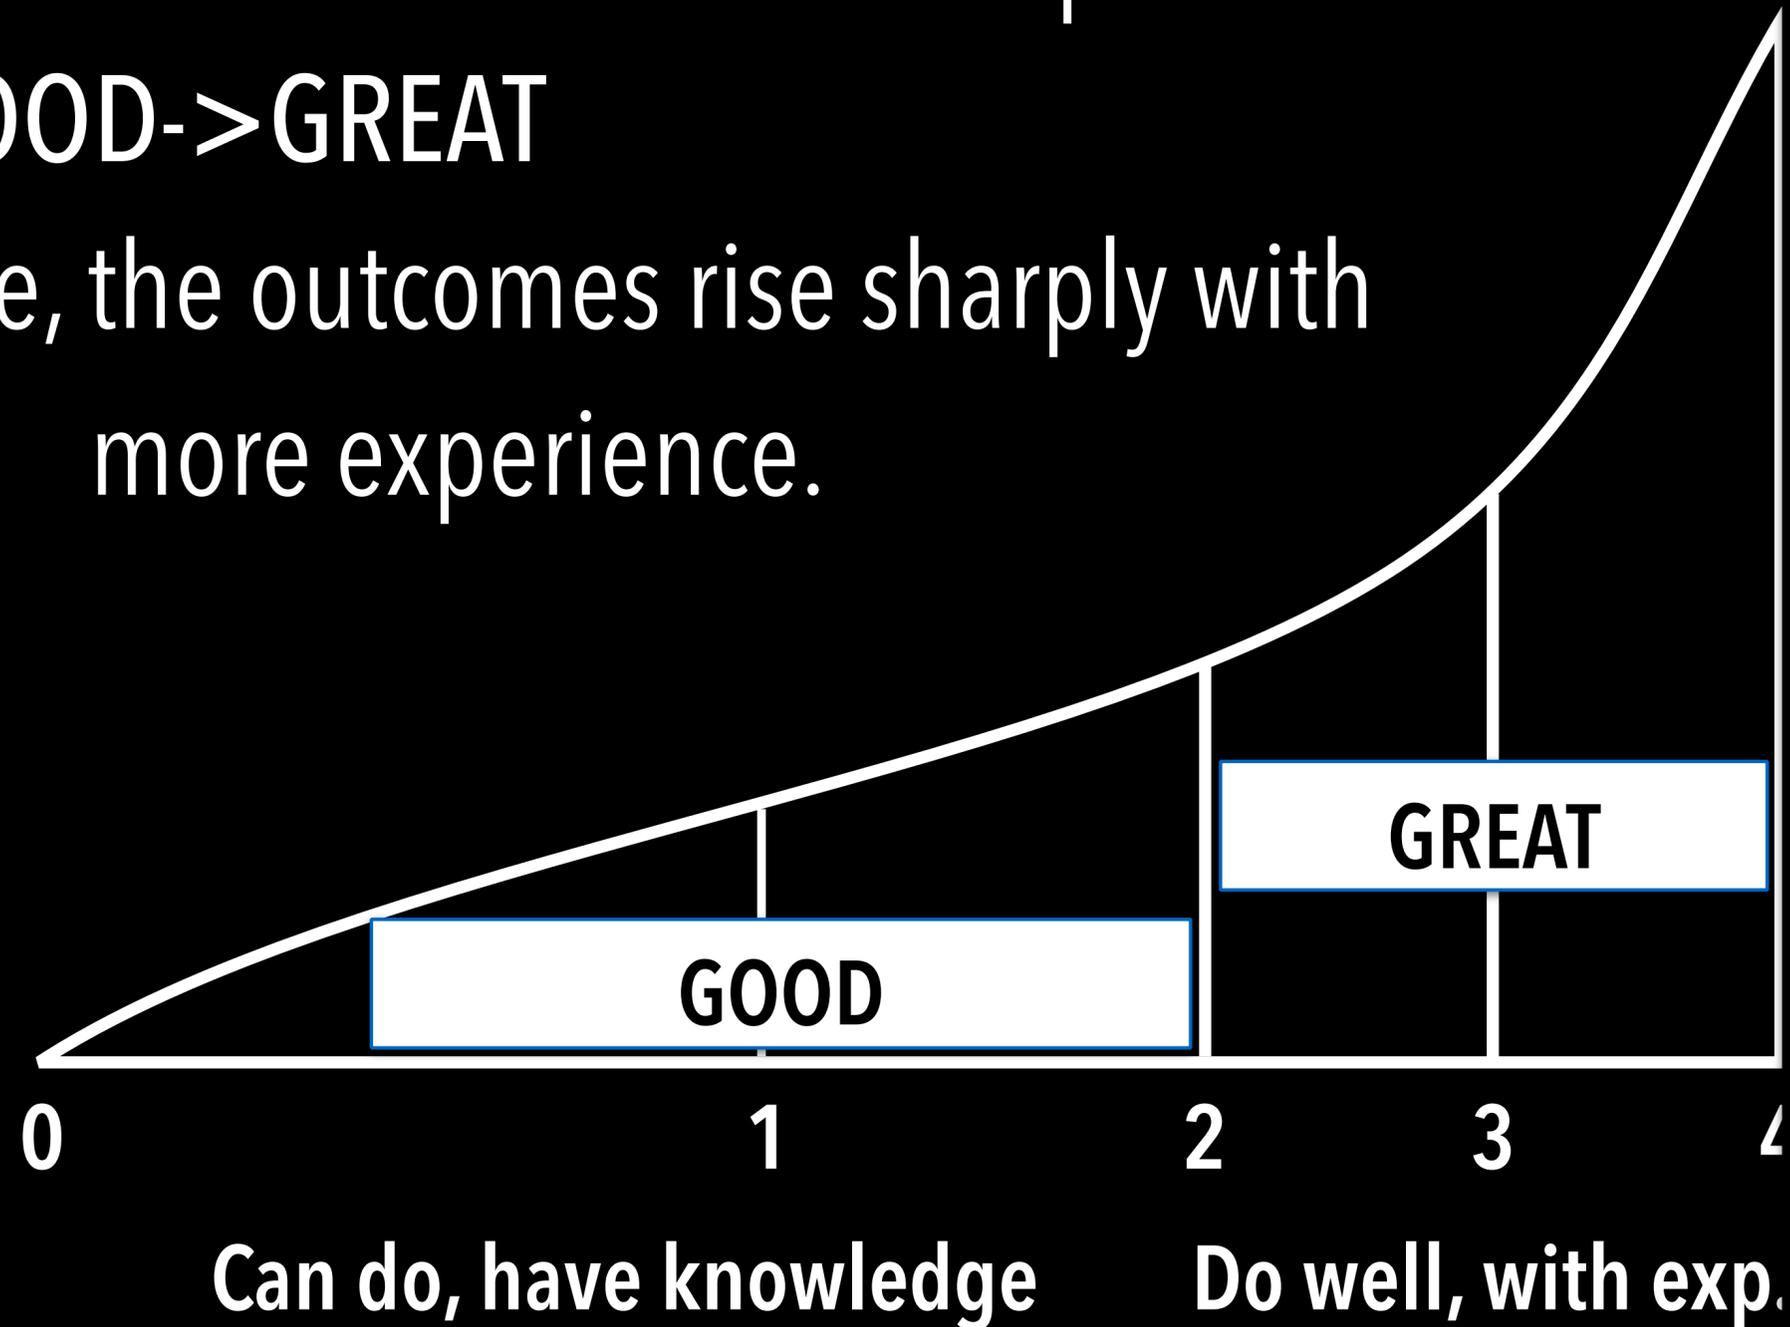

So, what is **GOOD** → **BRILLIANT**?

Let me illustrate this on a 5-point scale.

GOOD → **GREAT**

See, the outcomes rise sharply with more experience.

So, what is **GOOD** → **BRILLIANT**?

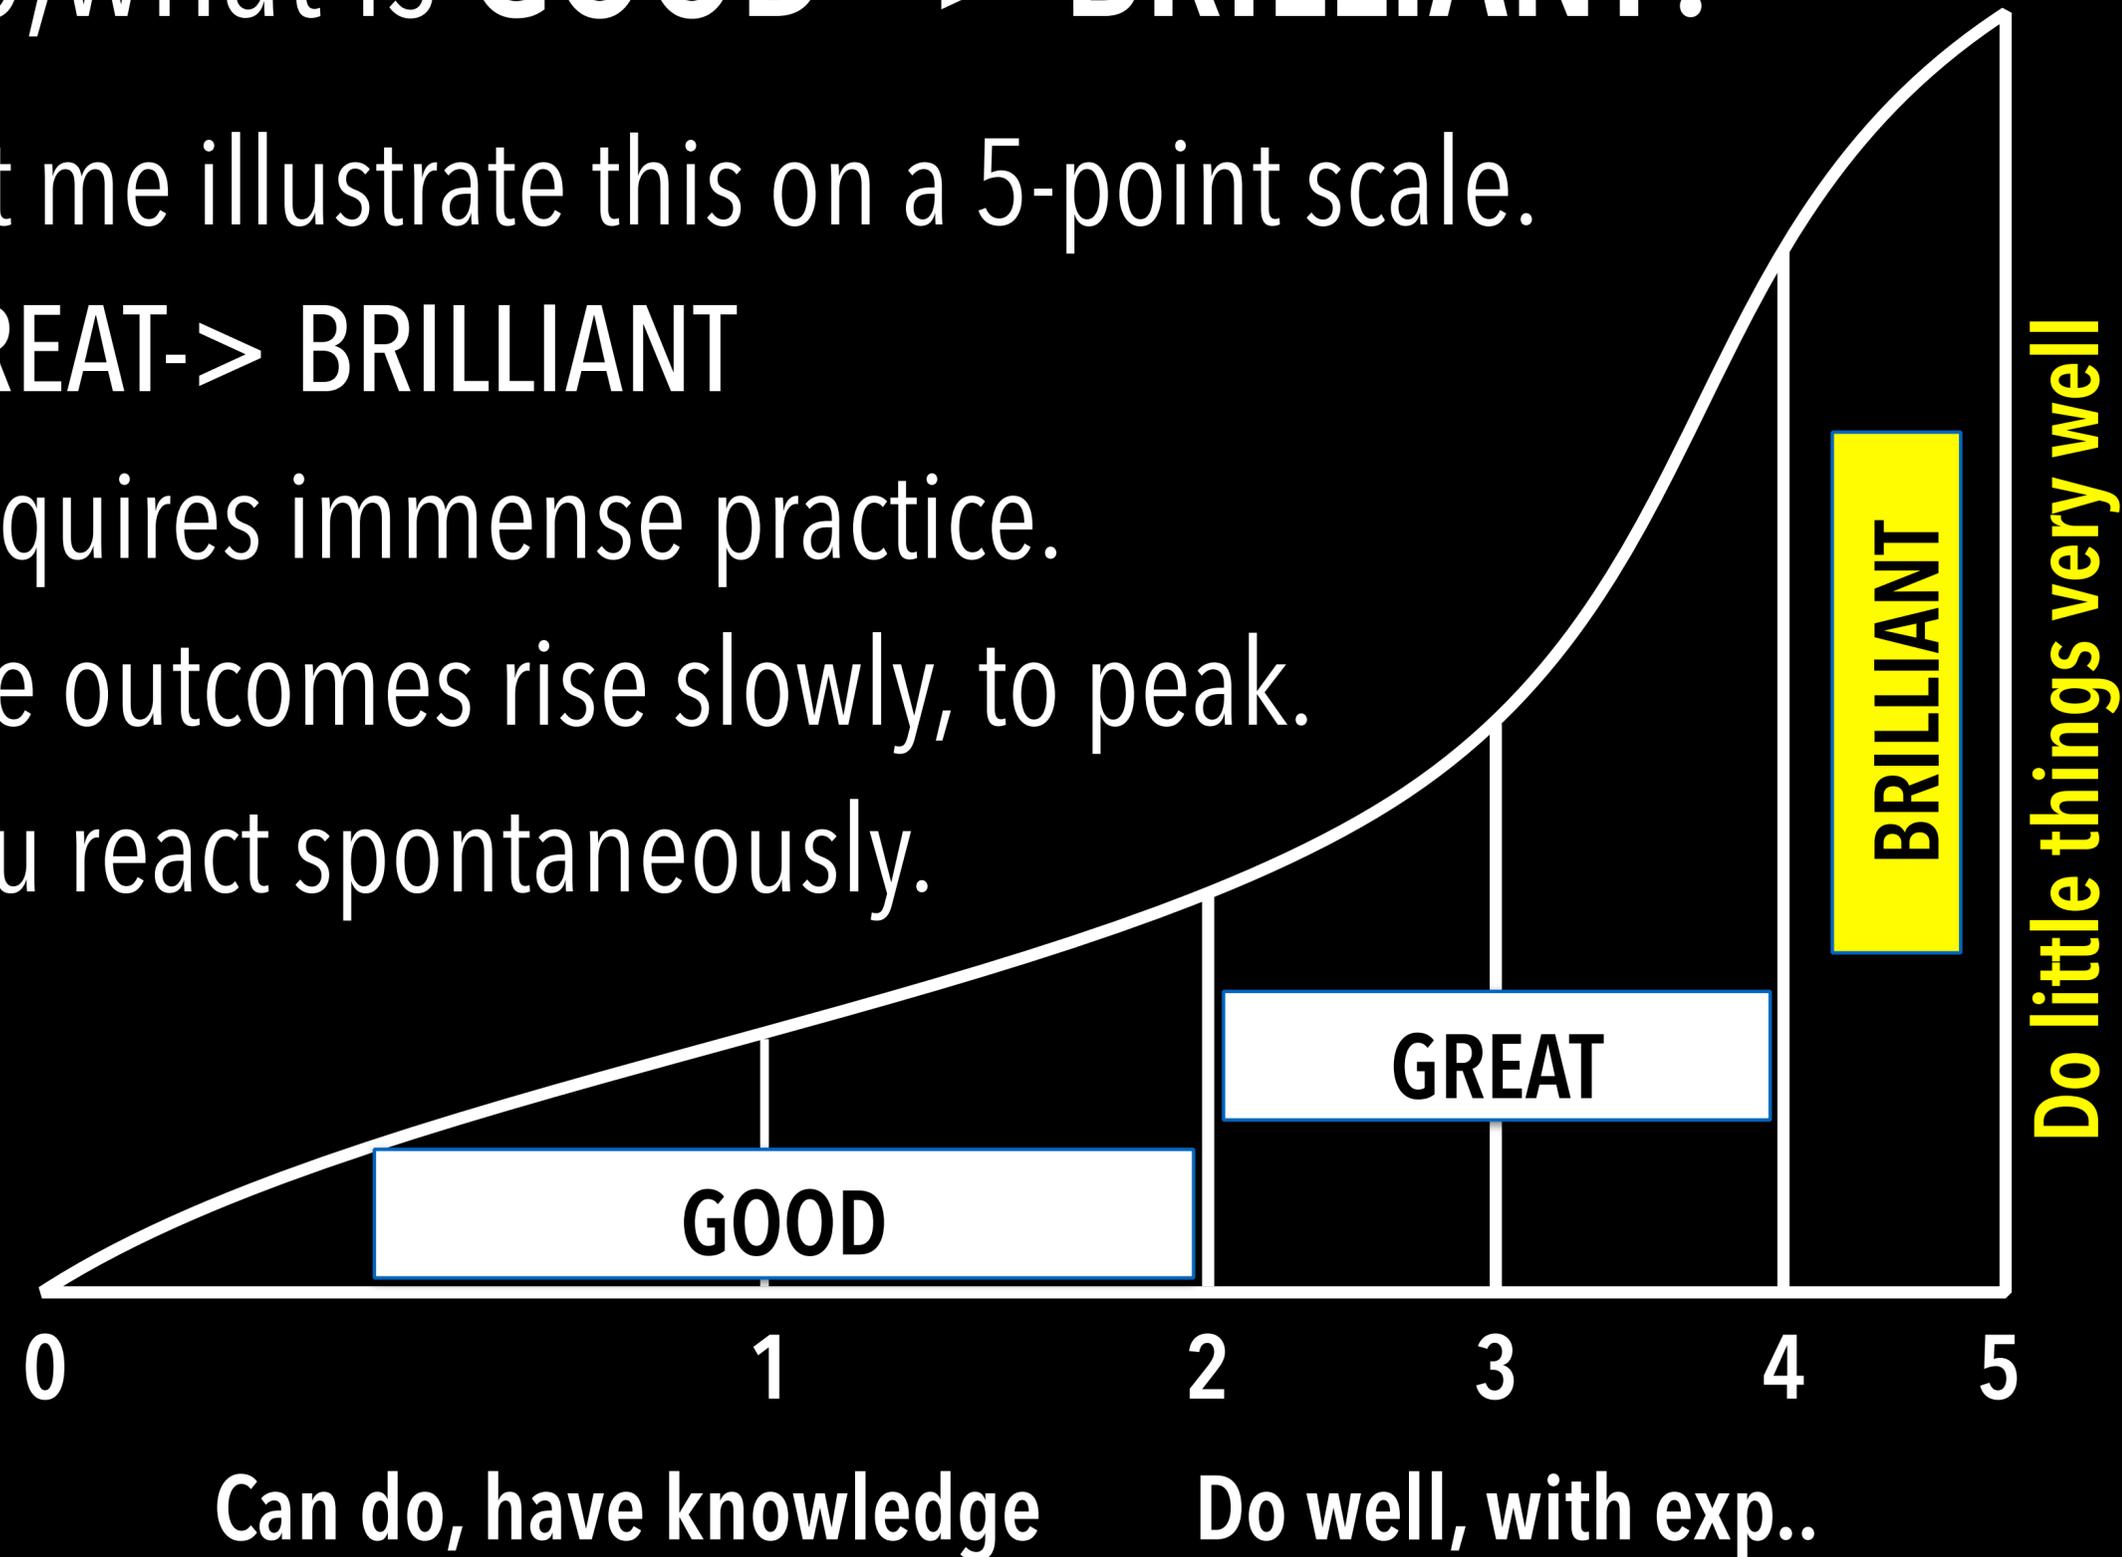

Let me illustrate this on a 5-point scale.

GREAT → **BRILLIANT**

Requires immense practice.

The outcomes rise slowly, to peak.

You react spontaneously.

Good testing is a combination of

Brilliant testing happens when you are:

fully **IMMERSED**, in the moment

sharply **FOCUSSED**, yet unbounded

That is, you are in a **FLOW**

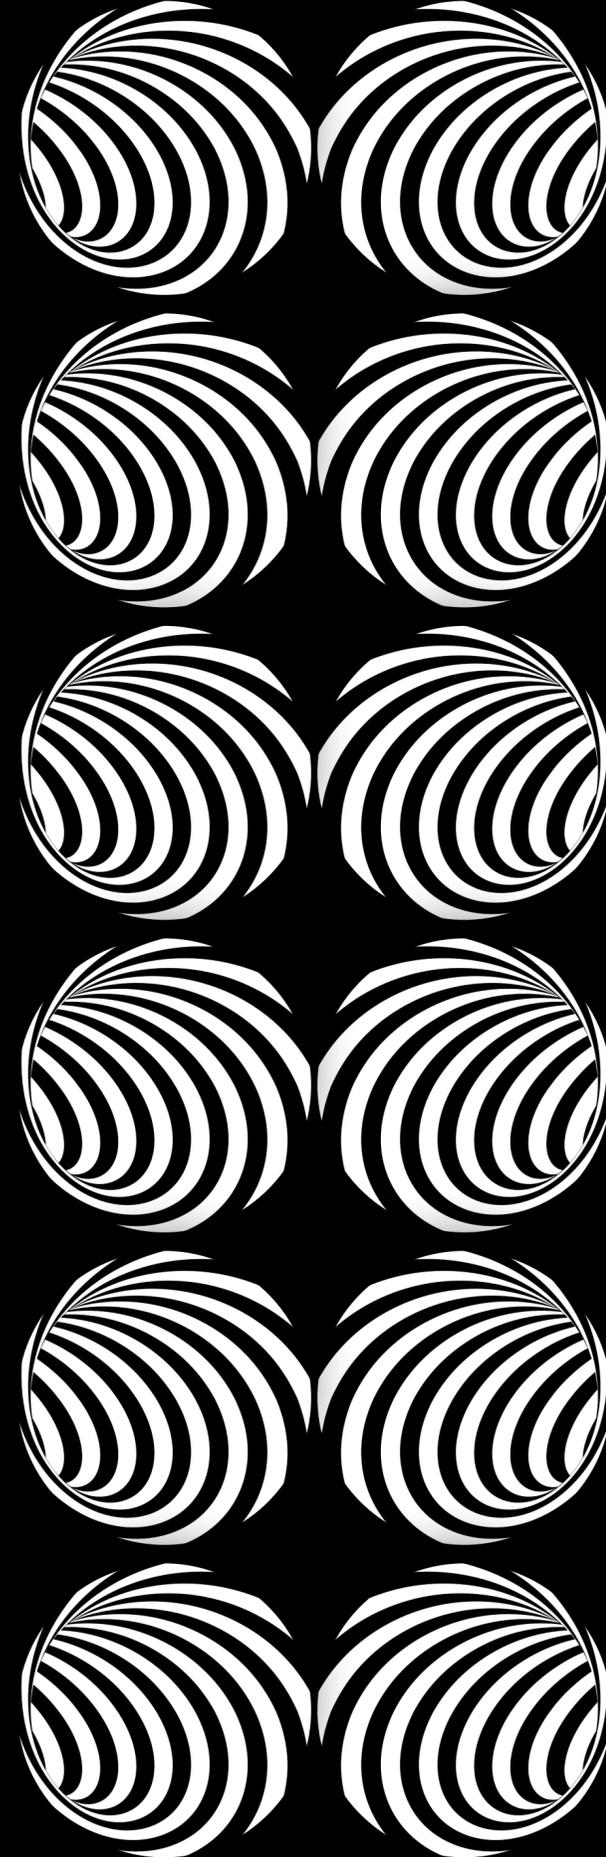

So, what is **FLOW**?

So, what is **FLOW**?

FLOW is a state :

... where are immersed, absolutely mindful

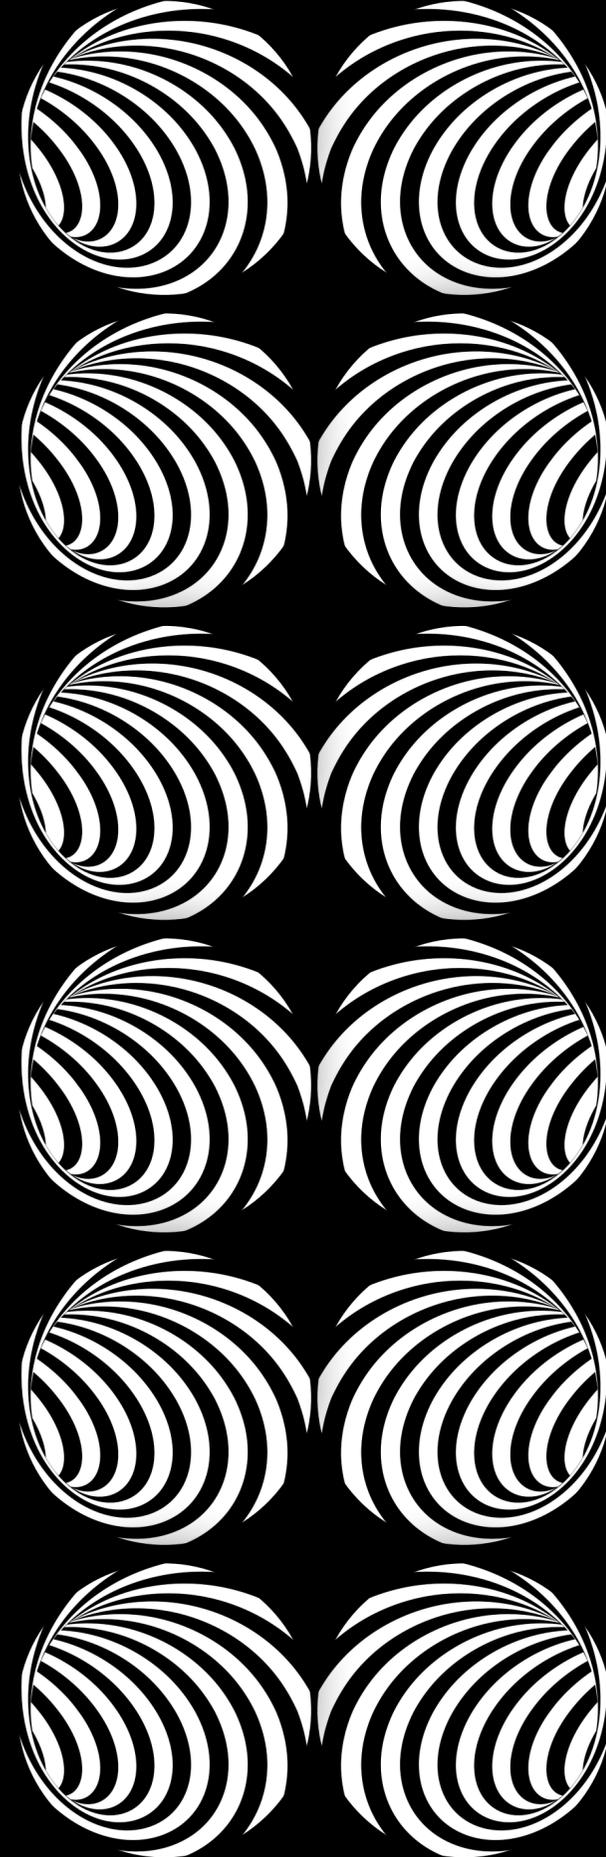

So, what is **FLOW**?

FLOW is a state :

... where are immersed, absolutely mindful

... where you do enormous work, without tiring

... when you are very observant, dispassionate

... when you are very agile, reacting fluidly

... where time seems frozen, infinitely stretched

A state of opposites with no tension

How to get into **FLOW**
to do **BRILLIANT TEST?**

How to get into **FLOW** to do **BRILLIANT TEST?**

engage senses - visual, tactile, hearing
- pictures, colours, pen, paper,
write, doodle, music

senses

How to get into **FLOW** to do **BRILLIANT TEST?**

engage senses - visual, tactile, hearing
- pictures, colours, pen, paper,
write, doodle, music

- (1) sketch out strategy
- (2) jot test ideas , suggestions
- (3) note down questions, observations
- (4) list scenarios
- (5) record issues

DO 'immense practice'

In a state of FLOW, is when logic & creative combine.
Observant , Non-judgemental, Expansive thinking.

This is when we exploit the **infinite power we possess, delving into sub-conscious that is far bigger than conscious mind.**

This is when we exploit the **infinite power we possess, delving into sub-conscious that is far bigger than conscious mind.**

**Interesting questions pop up, ideas germinate rapidly,
actions done quickly, tiny observations captured,
resulting in brilliant testing.**

**Part of Immersive Session Testing (IST),
a style that marries logical left with creative right, with a practice that is immersive.**

Automation helps to be efficient, smarter tools makes it better.

Automation helps to be efficient, smarter tools makes it better.
Now delve deeper to complement machine, to be brilliant.
Exploit the power of sub conscious, by being in a FLOW.

To become GOOD/GREAT, learn, do, **unlearn**.
Use knowledge and experience gained.

To become BRILLIANT, go **inward**.
Practise immensely. Harness innate potential.

Be in a flow. TEST BRILLIANTLY.
Have a great day!
